

Credits & Third-Party Attribution

Every asset shipped in this project is listed below with its source and license. Add a row when importing a new asset — do not defer.

Assets

Asset	Source	License	Used in
Realistic Mobile Car #26 (Demo) — RMC26 prefab + Wheel_A/B/C rims + shared shaders/materials from <code>Main/</code>	Unity Asset Store — Surdov Vadym	Unity Asset Store EULA (free demo of paid series)	Hero car — physics, damage system (dent/break), enter/exit anims. Path: <code>Assets/ThirdParty/RealisticMobileCars - Pro3DModels/</code>
EasyRoads3D Free v3 — road-building Editor extension + demo scenes + Terrain Assets	Unity Asset Store — AndaSoft	Unity Asset Store EULA (free tier)	Building the desert circuit (Phase 1). Spline-based road extrusion, terrain-aware. Path: <code>Assets/ThirdParty/EasyRoads3D/ + Assets/ThirdParty/EasyRoads3D scenes/</code>
Aerial Beach 01 — 2K PBR texture set (diff/nor_gl/rough/ao/arm/disp)	Poly Haven	CC0	Terrain texture layer for the desert circuit (Phase 1). Path: <code>Assets/ThirdParty/AerialBeach/</code>
Aerial Sand — 2K PBR texture set (diff/nor_gl/rough/ao/arm/disp)	Poly Haven	CC0	Terrain texture layer for the desert circuit (Phase 1). Path: <code>Assets/ThirdParty/AerialSand/</code>
Kloofendal 43D Clear Puresky — 2K HDRI	Poly Haven	CC0	Scene skybox for the desert circuit (Phase 1). Path: <code>Assets/ThirdParty/SkyBox/</code>
GroundSand005 — 2K PBR texture set (COL/BUMP/AO/DISP + 16-bit variants)	ambientCG (or 3DAssets)	CC0	Alternative sand texture set kept as fallback. Path: <code>Assets/ThirdParty/GroundSand005/</code>
Simple Street Props — 23 prefabs (concrete barriers, traffic cones, water/traffic barrels, road signs, speed breakers, dumpsters/bins)	Unity Asset Store	Unity Asset Store EULA (Free)	Track-side props along the DriftCircuit (Phase 1 polish). Path: <code>Assets/ThirdParty/Simple Street Props/</code>
Road Props for Games — Diffuse Map Atlas LP — 25 prefabs (barrier fences, bollards, road signs, borders, tetrapods, urns, bench, speed bumps)	Unity Asset Store	Unity Asset Store EULA (Free)	Track-side props along the DriftCircuit (Phase 1 polish). Path: <code>Assets/ThirdParty/Road props for games/</code>
Sonniss GDC 2024 Audio Bundle (Part 8) — curated subset: Pole Position Porsche Carrera GT (4 engine clips), Wavemotion Rally Legend (4 rally clips), Mechanical Wave Torturing Metal (4 crash/screech clips), Mechanical Wave Glass Break, DavidDumais Car Explosion, CB Sounddesign Activation 2 (4 UI clicks)	Sonniss GDC Bundle	Royalty-free, no attribution required (attribution kept anyway)	Engine, drift/rally SFX, crash/glass/metal impacts, UI. Path: <code>Assets/ThirdParty/Sonniss/GDC2024/</code> — 18 wav files, ~284 MB
Kenney Impact Sounds — curated subset (55 files): impactGlass/Metal/Plate (light/med/heavy variants),	Kenney	CC0	Per-collision impact banks — randomized clip per hit. Path: <code>Assets/ThirdParty/KennyImpactAudio/</code>

Asset	Source	License	Used in
impactGeneric_light, footstep_concrete			

Fonts

Font	Source	License	Used in
LiberationSans SDF (+ Fallback)	Ships with Unity's TextMeshPro package (Google's Liberation Sans)	SIL Open Font License 1.1	Every HUD and Settings-panel <code>TMP_Text</code> — no custom font imported

Audio

All audio credits are consolidated in the **Assets** table above (Sonniss GDC 2024 subset + Kenney Impact Sounds subset). No separate audio-only assets are referenced. All AudioClips ship with per-clip Android platform overrides (Vorbis for clips > 3 s, ADPCM for shorter samples) — see [OPTIMIZATION.md §2](#).

Code / Reference

Repo	Source	License	Used as
<i>Prometeo Car Controller</i>	https://github.com/Mecanik/PrometeoCarController	MIT	<i>Reference only — no code copied</i>

Rule: no asset ships without an entry above. When in doubt about license, leave it out.
